Subject: Reference for Eric Carbajo & Community Renovations

To prospective customers:

Eric and his crew were contracted to make my bathroom into a wet room. In this job, they completely gutted the bathroom, rearranged the total configuration of the room and installed new electric outlets, lighting, shower, sink, toilet and at a new height for handicap usage. They moved the heat register, tiled the walls, and floor.

The crew then added the connection for a new hook up for a Washer & Dryer on the first floor, took my broom closet and installed pull out shelves, installed a garbage disposal, and dish washer. I was very happy with their work. They ended up working around the floor workers and movers.

Unfortunately my husband died during all of this, and they couldn't have been more accommodating. They made sure to keep me in the loop about what they were doing and when.

The subcontractors couldn't have been more friendly and professional. They cleaned up after they were done, wore shoe protectors to keep the mud out, and helped me with many things that I am sure were not part of their job, they were just so helpful. And a surprise to me, Eric kept in touch with me after the job was done to make sure I was happy with the job and kept asking if there was anything he could do for me.

In all they have become friends that I feel comfortable that I can call them anytime I need help.

Regards,

Veronica
