RE: Letter of Recommendation

To whom it may concern,

Community Renovations performed the following work at our Adult Foster Care home located in Taylor, MI:

1. Installed a conforming handicap ramp in the front of the home.
2. Installed a conforming handicap ramp on the side of the home.
3. Installed numerous 36" interior doors.
4. Installed one 36" exterior door.

The projects were competitively bid; Community Renovations was competitive on all projects. The quality of all the work performed met or exceeded our expectations. All work was completed on time and within the agreed to budget.

Mr. Eric Carbajo, Community Renovations owner, is a talented and honest contractor. I will use Community Renovations for future projects and would recommend this company to anyone seeking high quality, affordable construction work.

Sincerely,

Steven
